

SNELL EXTRA HEAVY DUTY PP HAND STRAPPING

Product Code:

502004 Grey

Description:

19mm Extra Heavy Duty Hand Strapping

Strapping Specifications:

Roll Length m:	1000
Roll Inside mm:	150
Diameter Outside mm:	460
Roll Width mm:	115
Strap Width mm:	18.0-19.0
Strap Thickness mm:	0.90-1.00
Breaking Strain kg:	400
Approx Roll Weight kg:	10.8

Strapping, Accessories & Tools Compatibility

Buckles:	Wire 19mm HD
Seals:	Plain Snap-On 19mm HD
Tensioners:	Orgapack 2975.163
Sealers:	Ybico C302
Combination Tools:	Strapex STB80

SNELL EXTRA HEAVY DUTY PP HAND STRAPPING

Joining

There are several choices available for creating a seal or join with polypropylene hand strap.

1. Metal Seal – The strap is tensioned, then a metal seal is used with a crimping tool to compress the seal tight on to the strap. Refer Snell Code 523001
2. Wire Seal – The strap is threaded onto the wire seal then tension using a tensioner tool and when the tool is released the strap will stay tight. Refer Snell Code 527007
3. Plastic Buckle Seal – The strap is threaded onto the plastic buckle and then pulled tight or use a tensioner tool and when the tool is released the strap will stay tight. Refer Snell code 65POLY19.
4. Friction Welding Tool – A friction welding hand tool can be used on the 19mm polypropylene hand strap. Refer Snell Code 539005
