Robust, comfortable cut resistant glove.

PRIMARY INDUSTRIES

- Glass
- Laminated plastics
- Ceramic
- Finished metals and alloys

IDEAL APPLICATIONS

- Metal fabrication
- Handling of glass sheets, sharp-edged objects

DESCRIPTION

- PowerFlex gloves use seamless knitting technology for improved comfort.
- High level protection from cuts is provided by 100% Kevlar® fibre and a thick palm coating of latex rubber.
- The 'crinkle finish' latex coating provides a firm grip in both wet and dry applications, reducing the likelihood of slippage.
- Close, flexible fit for maximum dexterity.
- Fully-coated thumb for additional protection around this high wear area.

FEATURED TECHNOLOGY

Kevlar®

CATEGORY II

Caution: This product contains natural rubber latex which may cause allergic reactions.
