Dear Rizalie,

APPROVAL OF DAIRY MAINTENANCE COMPOUND FOR USE IN FARM DAIRIES AND FOR USE IN DAIRY PROCESSING

The renewal product **OxyBAC** has been considered in conjunction with the independent assessment reports formerly provided and determined to satisfy the requirements of regulations 12, 13, 14, 53, and 247 of the Animal Products Regulations 2021 and regulation 43 of the Raw Milk for Sale Consumers Regulations 2015, when used in accordance with the label.

The product **OxyBAC** has been assessed and is approved for use in farm dairies and for use in dairy premises when used in accordance with the label instructions.

This approval for use in farm dairies of the compound is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Hands must be rinsed with suitable water after use if coming into contact with food or food contact surfaces.

This approval for use in dairy processing of the compound is subject to the following conditions:

1. To be used in accordance with label instructions.
2. Hands must be rinsed with suitable water after use if coming into contact with food or food contact surfaces.

Where this **approval** is stated on the product label, the statement “MPI approved for use in farm dairies” is to be used, unless an alternative is agreed in writing by MPI.

Where this **approval** is stated on the product label, the statement “MPI approved for use in dairy processing” is to be used, unless an alternative is agreed in writing by MPI.

Should this product be determined to be unsatisfactory when used as recommended by the manufacturer or an agent of the manufacturer at the stated dosage, MPI may withdraw this approval.

Review

This approval of dairy maintenance compound for use in farm dairies and for use in dairy processing is valid for a maximum period of 5 years but is subject to periodic review and may be withdrawn at any time should the Director-General determine that there is sufficient evidence that the products are not fit for the purpose for which this approval applies. You will be issued a letter prior to the review date, which is set at **29 March 2028**, but you are responsible for ensuring that this review is completed if you wish to retain MPI approval of the above dairy maintenance compound.
