

Universal Absorbent Pads

Quickly and effectively absorbs any spilled liquid. The ideal solution when working with multiple or unknown liquids.

- SpillTech® Universal Absorbent Pads are constructed from melt-blown polypropylene with a low-linting outer layer and dimpled for additional durability.
- As their name suggests, Universal Absorbent Pads can be used on any spill and will readily absorb fuel, oil, solvent, acids, bodily fluids and water.
- SpillTech® Universal Absorbent Pads take the worry out of spill response. If you work with multiple liquids or some unknown liquids then these are the absorbent pads for you.
- SpillTech® Universal Absorbent Pads come in a carton with a perforated panel that is easily removed to turn the carton into a convenient benchtop dispenser.
