

## Universal Absorbent Socks

*Contain and absorb liquid spills with SpillTech® Universal Absorbent Socks. Works with all liquid spills.*

- SpillTech® Universal Absorbent Socks are constructed from polypropylene that quickly and effectively absorbs any liquid spill, taking the worry out of spill response.
- Available in 1.2m and 3m lengths, SpillTech® Universal Socks are an essential part of any spill kit or spill response trailer.
- Absorbent socks are typically used to stop spills from spreading and allow spilled liquids to pool behind the socks making clean up quicker and easier.
- Socks can be over lapped to make an effective barrier and provide responders with time to clean up the remaining spill.
- SpillTech® Universal Absorbent Socks absorb all liquid spills and are designed for use on land only.
