Storage		Film should be stored in a well-ventilated area out of direct sunlight and near ground level at a cool ambient temperature between 0-20°C.	
Product Stewardship and Recyclability		Industrial plastics waste companies and recyclers can collect this material for recycling where enough clean PE film is available. This stretch film is code 4 for New Zealand recycling purposes. Cardboard cores can be recycled by Industrial recyclers if film and tape is removed. Cardboard layer pads and wrapping used as packaging on the pallet can be recycled using typical recycling channels.	
Food Contact		This film is intended for use as secondary and tertiary packaging material not in direct food contact.
