

IPNZ PRODUCT RANGE

IPNZ Item	IPNZ Description
EBM0020	250mm x 900M x 20µm

Properties			
Measurement	Unit	Target	Test Method
Colour		Clear	
Gauge	µm	20 (+/- 3µm)	Thickness Gauge
Film Width	mm	250 (+/- 3mm)	Measuring Tape
Roll Length	M	900	
Roll Weight	kg	4.14 (+/- 3%)	Electronic Scale
Core size ID	mm	77	
Rolls per pallet	ea	144	
Pallets		IP Printed 1200 x 1200mm	
Packaging & Labelling		Labels placed inside the core containing item and batch information.	
Storage		Film should be stored in a well-ventilated area out of direct sunlight and near ground level at a cool ambient temperature between 0-20°C.	
Product Stewardship and Recyclability		<p>Industrial plastics waste companies and recyclers can collect this material for recycling where enough clean PE film is available.</p> <p>This stretch film is code 4 for New Zealand recycling purposes.</p> <p>Cardboard cores can be recycled by Industrial recyclers if film and tape is removed.</p> <p>Cardboard layer pads and wrapping used as packaging on the pallet can be recycled using typical recycling channels.</p>	
Food Contact		This film is intended for use as secondary and tertiary packaging material not in direct food contact.
